SYED SALEH MOHAMMAD SAJID

BSc in Computer Science, BRAC University

📞 +880-1775289400   ✉ salehsajid86@gmail.com   📍 Dhaka, Bangladesh   🌐 https://sezid.netlify.app

PROJECTS

Food Delivery Site

🌐 https://khidaaa.netlify.app

A food delivery website made using React only. It contains little features such as adding items to cart and filtering category of foods. More features to come in the future. Check out the live page at the link given

Exploratory Data Analysis

🌐 https://github.com/sezid/data-analysis

A project conducted with two datasets. From each dataset code was written in Python with the help of Pandas and Matplotlib to show the bar charts and scatter plots. Each graph, color coded to show different features, revealed how one feature is related with another. Check out the GitHub page to know more.

EDUCATION

BRAC University 2024	**BSc in Computer Science** **CGPA: 3.54**
Playpen School 2020	**A Levels in Mathematics, Physics, Chemistry**
Playpen School 2018	**O Levels in Maths D, Physics, Chemistry, Biology, Add Maths, Bengali, English**

PROFILE

I thrive in dynamic, fast-paced environments and enjoy collaborating with diverse teams to tackle complex challenges. My adaptability allows me to quickly learn and integrate new technologies and methodologies into my work. Whether it's building software solutions or using data-driven approaches, I am committed to developing high-quality, impactful projects that benefit society.

SKILLS

- Programming(C, Python, JavaScript, Java, SQL, OOP)
- Frontend Development
- HTML and CSS
- React, MongoDB, Tailwind CSS
- ScikitLearn, Pandas, Numpy, Keras, TensorFlow, Matplotlib
- Adobe Illustrator, Canva
- Data Analysis, Data Visualization
- Machine Learning, Neural Network
- Git and GitHub
