Projects

HR Analytics
🌐 www.github.com/sezid/data-analysis

- Explored Key Metrics related to employee retention
- Utilized advanced data modeling, DAX calculations and measures and power query to transform data into meaningful insights
- Designed a Power BI report to communicate actionable business insights

LIIA Smart Inc Official Website
🌐 www.liiasmart.com

- Integrated a contact form, job application submisson via Node.js to receive and MongoDB to store them
- Optimized image loading on the webpage by compressing images and adding a blur effect on images if there is a delay
- Adjusted website UI for different screen sizes using Tailwind CSS

BizBuySell

- Scraped data from BizBuySell website by extracting information such as title, asking price, cash flow, description etc.
- Used Selenium and other python libraries to write code that generate a listing to store results on a weekly basis
- Organized meetings with potential brokers to discuss company matters

Experience

IT Project Analyst   Jan, 2025 - Present
LIIA Smart Inc - California, USA   Remote, Full-time

- **LIIA Smart Inc Website:** Led the development of the company's website, integrating a backend and database system to handle form submissions and job applications. This project enhanced my problem-solving skills and gave me confidence in building full-stack web applications.
- **Data-Driven Insights & Reporting:** Extracted and structured key business data using Python and Excel, generating insights for client reports and internal decision-making.
- **File Renaming Automation:** Developed a programmatic solution to efficiently rename large sets of files, automating manual processes and improving workflow efficiency.
- **Web Scraper Tool:** Built a data extraction tool as part of the BizBuySell project, refining my ability to implement and optimize scraping solutions for business intelligence purposes.

Education

BRAC University   Dhaka, Bangladesh
BSc in Computer Science   Oct, 2020 - Oct, 2024

Playpen School   Dhaka, Bangladesh
GCE A Levels   Aug, 2018 - Aug, 2020

Playpen School   Dhaka, Bangladesh
GCE O Levels   Aug, 2016 - Aug, 2018

Skills

Programming - Python, Java, C, SQL , OOP, Data Structure & Algorithms

Web Development - HTML, CSS, JavaScript, React.js, Tailwind CSS, Node.js, MySQL, MongoDB

ML, DL, AI - Scikit-learn, Tensorflow, Keras, LLMs

Data Extraction and Analytics - Selenium, BeautifulSoup, NumPy, Pandas, Matplotlib, Seaborn, Power BI

Other - MS Office, Google Suite, Adobe Illustrator, Canva, Jira, Trello, Business Analysis, Market Research

Soft Skills - Communication, Flexibility, Adaptability, Critical Thinker, Analytical, Problem Solving
